DETAILED ACTION

1. Claims 11-18 and 19-23 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest the following in combination with the remaining limitations of the claims:

A method for continuous measurement of thermal conductivity of a multi-functional fluid, the method comprising determining with the temperature increase measurement, an evolution of the multi-functional fluid temperature at the three points as a function of time; determining thermodynamic characteristics of the sample of the multi-functional fluid as a function of the evolution; and calculating a thermal conductivity of the sample based on the determined evolution (see claim 11).

A device for continuous measurement of thermal conductivity of a multi-functional fluid, the device comprising a means to determine, on a basis of values measured, a temperature evolution of the multi-functional fluid as a function of time at the separate points within the sample; a means to deduce, from the temperature evolution, thermodynamic characteristics of the sample of the multi-functional fluid; and a means to calculate thermal conductivity of this sample (see claim 14).

A method for continuous measurement of thermal conductivity of a multi-functional fluid, the method comprising the steps of determining with the temperature increase

measurement, an evolution of the multifunctional fluid temperature at the three temperature probes as a function of time; determining thermodynamic characteristics of the sample of the multi-functional fluid as a function of the evolution; and calculating a thermal conductivity of the sample (see claim 21).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
